Re: O.U. 2 MODIFIED
SAMPLING AND ANALYSIS PLAN

Mr. Jack Craig
U.S. DOE-FMPC
P.O. Box 398705
Cincinnati, Ohio 45239

Dear Mr. Craig:

Ohio EPA staff have reviewed the Modified Sampling and Analysis Plan for O.U. 2 and agrees with all modifications with the exception of the Simulated Rainwater Leach Procedure (SRLP). This is not an approved method and therefore we question its applicability. However, DOE can proceed with this method as long as TCLP and total metals data are also collected. These results should be presented together so that comparisons can be made as to which set of values is most appropriate to use for risk determination. We would like to see these results in a letter report at the completion of this sampling effort.

If you have any questions, please contact me.

Sincerely,

Graham E. Mitchell
DOE Coordinator
